PARIS UNIVERSAL EXHIBITION
BRITISH SECTION
1889

June 14. 89.

SECTION BRITANNIQUE

EXPOSITION UNIVERSELLE,

PARIS.

Dear M. le President

1889

I am very sorry to say that I am obliged to return to London on Monday morning & that I therefore cannot be present at the meetings of the Jury 45 at present. At a future time I hope to be able to assist at the meetings. In the mean time Dr. Douglas Hogg (Suppleant) has kindly undertaken to supply my place & he will

communicate with me in
London whenever it is needful.
I have already been with
Dr. Hogg through the
British Exhibits & I have
informed him as to my
opinion as to the most
valuable exhibits.

Be good enough to make
my apologies to the Members
of the Jury for my enforced
absence & assure them that
I am at their service for
any advice which I may
be able to give them as to
the British Exhibits.

Believe me, dear Sir,
Yours faithfully
Henry. E. Roscoe.

A. Monsieur
M. Scheurer Kestner
President of Jury 45

1872.

Manchester, 26 July

Prof. Roscoe.

45

THE OWENS COLLEGE,
MANCHESTER,

July 26th

Dear Sir,

I hope to be able to send you Mr Schorlemmer's translation (german) of the Appendix to my Spectrum Analysis very soon, I will also send you copies of the new lithographs of the Solar Prominences & of the Eclipse - You will be good enough to write to Mr Schorlemmer

respecting the translation
of the Primer as he
alone is responsible
for it. I will however,
inform him of your
desire to have the
MSS. by the end of
August -

Yrs truly

Henry E. Dosac

Rev. F. Vieyra Hon.

June 29/65

Owens College
Manchester.

June 28th 1865

My dear Sir

I regret that absence from Manchester has prevented me from replying to yours of the 21st before this. In answer to your desire that I should lecture at Norwich, I have to say that the distance from Manchester & the numerous duties of my post prevent me from undertaking to lecture for you during

the course of the Session.
If you would like to have
2 or 3 lectures on Spectrum
Analysis given on 2 or 3
consecutive days of my
Christmas Vacation (Dec
24th to Jan 7th) I will
undertake to give them.
My terms are £10.10. per
lecture & all expences paid.
I should need Mr Ladd to
send or bring his Electric
Lamp & Battery from
London - all other apparatus
I would bring with me.
I should not think it
worth while to come so
far for one lecture.

Remain, dear Sir,
Yours very truly
Henry E. Roscoe.

Rev J Crompton.

DSI

will have produced the
desired effect & that the
dear little patient will
not again complain.

Did you hear that we have
had a visit from Bertie?
He looks old - & in fact
he is old - but seemed in
good feather. We must
really go & Humberstone
to see him again.

Yours truly
H. E. Roscoe.

Victoria Park
Manchester
Jan 9. 79.

My dear Miss Simons

I am sure we are
much obliged for all the
trouble you have taken with
Margie & I feel sure
that she will greatly
benefit from the change
of discipline. As to her
indigestion I cannot help
thinking that she perhaps
gets "goodies" & other
sweet abominations when

She is out with Nellie & her stomach will not stand anything of the sort – or anything but the plainest of food.

I do not myself like giving children those charcoal biscuits & I think a little bicarbonate (say a pinch or two) of soda in some water (say a table spoonful) is less prejudicial & quite as nasty (which is important!) The other day I heard of a young lady who was in the habit of taking large quantities of charcoal (unknown to her husband a medical man) & she literally died from being cram full of the charcoal! A most sad & unpleasant end! I hope however that your judicious treatment

London. Oct. 8-88

My dear Victor Meyer

I beg to introduce to you with this an old pupil of mine at Owens College, Mr. John V. Abbott who is about to enter as a Student under you at Gottingen. I feel sure that he will please you as he is a good worker and an intelligent young man.

I am dear Meyer

Yours truly

Henry E. Roscoe

London Oct 14. 89

My dear Victor Meyer

I have much pleasure
in introducing to you
Mr John A Gardner of
Magdalen College Oxford
Who is about to study
Chemistry under you at
Heidelberg & who I think
you will find an admirable
pupil. I am yours truly

Henry E. Roscoe

Herrn Lehenineralth
Professor Victor Meyer

Mar. 9. 91

My dear Meyer

Many thanks for your kind thought of me. But - like yourself in London - I have got a bad cold & I therefore think I had better stay in the house as I have to go to Frankfort & home early tomorrow.

With best thanks & kindest regards Ever yours

K. E. Boas

THE OWENS COLLEGE,
MANCHESTER,

Oct 18. 78.

My dear Prof. Victor Meyer

This comes to introduce to your kind notice a young pupil of mine Mr Alfred Higgin who is about to study at the Zurich Polytechnicum. You will I hope find him intelligent & a careful worker.

Any attention which you may be able to show him will be gratefully received. Thanking you in anticipation I am dear sir

Yours truly
Henry E. Roscoe.

HENRY ENFIELD ROSCOE KNT

Professor at Owens College.

THE OWENS COLLEGE,
MANCHESTER,

Dec 5. 1872

Dear Sir

I shall be obliged if you can run down here by an early train on Saturday to see Mr Greenwood & myself on the subject of the new appointment

We are arranging for interviews with several of the candidates & their travelling expences will be paid. If you can
